Subject: Draft Comments in Follow-Up to 404 g Meeting
Attachments: January 25404gregs.GTS draftComments.01-22-19 (2).docx; MDE.Revised Assumption Regulations-Part 233.DRAFT.01-25-19.docx

Hi Kathy--

I am sharing the attached drafts with you to help you ensure that any major follow-up comments to the Dec 6 meeting make it into any briefing materials you may be providing to Mr. Ross. I worked with Gary Setzer on these and also let my immediate boss (Lee Currey) know that we intend to recommend some pretty specific changes to the regulations to reduce potential impediments to application submission and the triggering of the statutory deadline for an EPA decision. I cannot say with 100% confidence that these exact materials will be what MDE sends in final form into EPA--but I believe that the major issues raised and points made will be part of our final transmittal

Please feel free to call to discuss or if you need clarification.
